 SUMMARY

B.Tech Computer Science student and aspiring Data Analyst with hands-on experience in data analysis, cleaning, visualization, and dashboard development. Skilled in Python, SQL, Power BI, and Excel, with practical experience building interactive dashboards, performing exploratory data analysis (EDA), and generating business reports that support data-driven decision-making. Strong foundation in statistical analysis, data modeling, DAX, and Power Query, with growing expertise in KPI tracking, trend analysis, and stakeholder reporting.

 EXPERIENCE

- Data Analyst, Independent & Academic Projects**08/2025 – 04/2026
- Performed end-to-end data analysis on real-world datasets — data collection, cleaning, exploratory analysis, and reporting.
  - Built interactive Power BI dashboards to track KPIs, sales performance, and workforce trends for business and HR use cases.
  - Wrote SQL queries (JOIN, GROUP BY, HAVING, aggregate functions, subqueries) to extract insights from relational databases.
  - Applied Python and statistical analysis to clean data, identify trends, and support data-driven decision-making.

 SKILLS

**Data Analysis** — Data Cleaning, Data Wrangling, EDA, Data Visualization, Statistical Analysis, KPI & Trend Analysis, Data Modeling, ETL, Ad Hoc & Business Reporting  
**Programming & Query Languages** — Python, SQL  
**Databases** — MySQL, MongoDB  
**Visualization & BI Tools** — Microsoft Power BI, Microsoft Excel, Power Query, DAX, Pivot Tables  
**Tools & Platforms** — VS Code, Git, GitHub

 PROJECTS

- SQL & Python Data Analysis**01/2026 – 04/2026
- Wrote optimized SQL queries — JOIN, GROUP BY, HAVING, ORDER BY, aggregate functions, and subqueries — for multi-table business reporting.
  - Used Python to clean, query, and analyze relational data, producing analytical summaries for sales and customer behavior.
  - Tools: Python, SQL, MySQL
- Sales Performance Dashboard, Power BI**04/2025 – 05/2025
- Designed and built an interactive Power BI dashboard to track sales performance and key business KPIs across multiple product lines.
  - Cleaned and transformed raw sales data using Power Query and modeled metrics with DAX for accurate, reusable calculations.
  - Built dynamic visualizations for revenue, profit margin, customer growth, and sales trends to support management decision-making.
  - Tools: Power BI, Excel, DAX, Power Query
- HR Analytics Dashboard, Power BI**08/2025
- Analyzed employee attrition and workforce trends from HR datasets to surface retention risk patterns.
  - Built an interactive Power BI dashboard visualizing employee retention, tenure, and performance metrics.
  - Delivered summary reports enabling data-driven HR decision-making on workforce planning.
  - Tools: Power BI, Excel, DAX

 EDUCATION

- Uttarakhand Technical University, B.Tech, Computer Science and Engineering**2023 – 2027
- Riverain Public School, Senior Secondary (Class XII)**76%2023
- Sami Academy High School, Secondary (Class X)**71%2021

 CERTIFICATIONS & LANGUAGES

- Certifications**
- Microsoft Excel for Data Analysis
  - Microsoft Power BI
  - SQL for Data Analysis
  - Python for Data Science

- Languages**
- English (Fluent)
  - Hindi (Native)
  - German (Basic)
